Testimonial regarding Kym Krey –

I have had the pleasure of working with Ms Kym Krey, in various capacities, for the past 17 years in the hair and beauty industry.

Kym is an exceptional individual who has a gift for teaching and communication that has been very successfully translated into a dynamic enterprise.

Kym's enthusiasm and passion for the industry shines through in all of her professional interactions, leaving audiences attending an education or coaching seminar inspired, motivated and with a very clear understanding of the subject at hand.

Kym is also able to make even ordinarily dry topics entertaining and memorable. We always receive great feedback but after her session last week a very experienced customer of ours who attended her presentation commented on how much he had enjoyed the session, adding that "Kym could talk about paint drying and make it sound interesting".

The glamaCo business would not have been able to achieve the level of success that has been reached in a very short time frame without the valuable contributions of Kym Krey.

As a speaker, educator, motivator and coach Kym shines, there is no better.
