

To Whom It may Concern;

Our company has used Kym Krey as a consultant to our business owners on many occasions over the last 3 years. Kym is very good at consulting because she is professional, knowledgeable and affable. It is not easy to relate to all types of business owners, assess their strengths and weaknesses and present it back to them so they accept it and then change their habits. Kym does this with ease. Kym has done several presentations to our group and they are always pertinent, upbeat and well thought out. Her speaking/presentation skills are excellent. We would highly recommend Kym as a consultant and public speaker.

Regards
