

Hi, my name is Anna and I have had my hairdressing salon for almost six years now. I have enjoyed where my business has taken me and the people I have met along the way. And that's exactly how it has felt, the business had its own control and I would just follow putting out the fires or being in damage control, unsure of its next turn and where it would take me.

Business has a lot of contributing factors to its success, and for the past six years I have been keeping it up there, just running on gut feelings and the advice of my Accountant and Mentors.

I often thought about getting a coach. Like a lot of us in small-medium business we are concerned with justifying this "expense" as another wage. Six months after my initial thought of a coach I was recommended to see Kym Krey by one of Reps. I carried Kym's card around with me for another couple of months, then finally making contact with Kym, she sent me some information on what "My Coach" was all about.

When I met with Kym for the first time we sat down and discussed all my concerns and where I want the business to grow. The great thing with Kym is she has been here before and is industry specific. I went ahead with a program in which Kym tailored to my needs which I loved. I was given tools and formulas to work with that really made sense.

These tools I still use today. They give me so much confidence now in running the business and it takes the guess work right out.

Since starting with Kym I have noticed my profit margin grow, my staff are driven and enthusiastic with making their targets and I have a lot more quality time with my family.

I highly recommend for any Salon Owner to take one of the best steps they could do for themselves and their business, call Kym now!!

Anna Dunne
